

Galactic Scavenger Hunt

Welcome to the galaxy! The hunt has begun.
Another clue was left in the living room, where
you look at the sun.

You found the next clue, now reach for the stars!
Head to the kitchen where it's cold like the Mars!

Way to go robot, you reached the space station!
Now soar to the bathroom and the next clue lies
where you'd find rotation.

This is your last clue and time to land your
spaceship!
Break through the atmosphere of your house and
head to the landing strip.
